RANSOME and PARSONS beg to draw the attention of Architects, Builders, and others, to their PATENT STONE, which in its composition, differs essentially from all other artificial productions for a similar purpose—Flint forming the basis. In character, texture, and appearance it is made to resemble every kind of natural stone, at pleasure, from the finest marble to the coarsest sandstone, and to possess all their valuable and enduring properties, without being liable to any of their defects. It is especially applicable to all kinds of architectural decorations and mouldings, fountains, balustrades for terrace walks, vases and pericstals, &c., &c.; also, for all varieties of plain and ornamental flooring. In price it is far below the cost of any natural product, and, in many cases, can be furnished as low as ordinary cement. Copings of Boats, Stationary, or other Works of Art, can be produced in the finest Patent Stone as faithfully as in Plaster of Paris.

IMPORTANT to WATER COMPANIES, MANUFACTURERS, and the PUBLIC.—RANSOME and PARSONS beg to call the attention of Water Companies, Manufacturers, and others to their PATENT STONE FILTERING SLABS, which are capable of filtering from 100 to 200 gallons of water per superficial foot per day, with a head of water varying from 2 to 4 feet. These slabs can be produced to any required dimensions, and, consequently, can be adapted to any cistern, tank, or reservoir. By a simple precautionary arrangement, they are prevented from being in any way choked or impeded in their action. Price 3s. per per foot foot.—Full descriptions and prices of their other descriptions of filters will be supplied on application.

IMPORTANT to BRICKMAKERS and CONTRACTORS.—RANSOME and PARSONS are also the proprietors of HALL'S PATENT BRICK-MAKING MACHINE, capable of moulding 25,000 bricks per day and upwards, which are superior in their manufactured by hand, and are produced at considerably less cost. Communications to be addressed to the Patentees, Messrs. RANSOME and PARSONS, Filtal Wharf, Ipswich; or to 329, Strand-street, London.

PORTLAND CEMENT, in Casks of Four Imperial Bushels QUANTITY, NOT WEIGHT, BEING THE STANDARD.—CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

6, South Wharf, Paddington.

PORTLAND CEMENT.—CHARLES RICHARDSON has the greatest confidence in introducing to the trade the above superior CEMENT, being of uniform colour and quality, a desideratum never before attained in Portland Cements. It possesses extraordinary cementitious qualities, resists the action of frost and heat, and is more durable than any other Cement; does not vegetate, turn green, or crack, even tested with which its eminent hydraulic properties stamp it at once as the first Cement of the day for work where all the above qualities are requisite. It is manufactured on the only principle Portland Cement can be, and contrary to the statements put forth by those who have hitherto had the monopoly. Manufactured by R. GREAVES, Esq., at his Works, near the River Avon, and sold to all parts of the kingdom per boat or rail, at a reduced price to the trade.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee.—Messrs. ROBINS, ASPDIN, and Co. request reference to Nos. 208, 209, 210, and also Nos. 284 and 285, of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, whereby the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water; it is proved by its superior qualities, harder, and more durable than any other description of Cement; it does not vegetate, crystalise, or turn green; nor is it affected by any atmospheric influences whatever the climate, resisting alike the action of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge comparison, and are prepared to meet Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also at their Depôt, 46, Hanover-street, Liverpool.

PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.

As used at St. George's Hospital, Hyde Park Corner.

JOHNS and CO. having effected some important improvements in the manufacture of this very useful material, confidently offer it to the notice of the Trade and the Public generally, as possessing great advantage over the common Lime Wash or Water Colours for STUCCO or BRICK WORK. It is a Stone Colour, but may be tinted to any other—DOES NOT WASH OFF—is perfectly dry in twenty-four hours, and, being a non-absorbent, is admirably adapted for Railway Stations, Union Workhouses, Barracks, Schools, Prisons, &c. One cwt. will cover 200 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.

JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great reduction in price, and its suitableness for internal as well as external surfaces, particularly in above all other materials of its kind extant. It has no caustic qualities; may be painted or papered in a few days; never blisters, cracks, or vegetates; soon becomes as hard as stone; and may be cleaned with a brush and water.

The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, with prices and every information may be obtained, on application to the Sole Agent, PHILIP HART, at the Warehouse, 18, Scot-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

GREAVES'S BLUE LIAS LIME.—The superior manner in which the above is ground renders it cheaper for concrete or stucco than any other lime or cement. The chief time for mortar is burnt on an improved principle, leaving scarcely any core. The satisfaction continually expressed by Engineers, Architects, and Contractors of the above, is the best recommendation.

Atkins, Canaine, and Co.'s Blue Vitrified Bricks, Pipes, Junctions, Bends, and Fire Goods.

Messrs. Jones, Portland, Parian, Aniston, and Lias Cements of the best quality.

Seconds, Paviors', Stocks, and other Bricks.
